"Roger Cavendish has been impressive. Out of all the tenders I received, his was most timely and professional. I've since been working with him, and find his advice both knowledgeable and reliable. Highly recommended."

"Roger at Daniel Wolfson has been fantastic! He's provided advice on how to best structure our accounting and business, and has also acted as a sounding board for our ideas. The practice structured their offerings to our specific requirements rather than trying to make us fit their standard rates, and their prices are exceedingly competitive. For personal attention from experienced, intelligent, friendly accountants, it just doesn't get any better than this!"
